CALCULATION OF CATEGORY

In routine cases, if the four-round average percentage of counts in Band A is 75% or more, the Category is 1; failing that, if the average of counts in Bands A and B combined is 75% or more, the Category is 2; otherwise the Category is 3.

The Category may be subjected to review (e.g. if one of the four rounds was missed or if an extra batch of samples was evaluated

Full details on the assessment of categories, and on the formal performance classifications, are given in the document "RICE Information for Participants"
